SINGLE SOURCE, FULL SPECTRUM OF PRODUCTS

We are not just a brand. We are not just a culture. We are not buyers! We are a family of growers that developed a culture and brand around a Single Farm. That means we can deliver you premium products with unrivaled consistency.

We are cannabis cultivators located at the heart of the Emerald Triangle, in Mendocino County. We cultivate in cutting-edge greenhouses that use mixed light (both artificial and sunlight) to produce high-end craft cannabis. Our plants are mindfully grown, meticulously cared for, and harvested by hand enabling each plant to better showcase their strain characteristics and ultimately reach their full genetic potential.
